

Program

DoloMeeting Arrhythmias

international workshop - sessioni infermieristiche

Bolzano

18-19 February, 2016

Scientific Committee

Chairman: Marco Tomaino

Members: Livio Bertagnolli

Martin Erckert

Massimiliano Manfrin

Rupert Paulmichl

Werner Rauhe

Support by:

Dr. Matthias Unterhuber

Virna Mazzucco

Department of Cardiology

Central Hospital of Bolzano

39100 Bolzano, Italy

Conference Venue

Eurac Research

Viale Druso, 1

39100 Bolzano - Italy

Organizing Secretariat & Provider

Adria Congrex Srl

Tel +39 (0)541/305847

Fax +39 (0)541/305842

info@gimsi.it

Official language: english

Thursday, 18 February 2016

ROOM A

8.00-9.00 **Role of “Physician Assistants”
in Arrhythmology (italian language)**

Chairmen:

**L. Bertagnolli (Leipzig), A. Coser (Trento),
M. Erckert (Merano), M. Maines (Rovereto),
M. Marini (Trento)**

Impiantistica

R. Agostini (Trento)

Elettrofisiologia

C. Pangrazzi (Rovereto)

Controllo Devices

D. Montanaro (Bolzano)

PLENARY ROOM

8.00-9.00 **Exposè of Scientific
and Clinical Experiences**

Chairmen:

C. Angheben (Rovereto), M. Manfrin (Bolzano)

9.00-10.30 **Sudden cardiac death prevention**

Chairmen:

M. Martinek (Innsbruck), W. Rauhe (Bolzano)

- New inclusion criteria for optimal management of ischemic and non ischemic patients. Primary prevention of ICD implantation: selection and timing **M. Maines (Rovereto)**
- Management of patients with acute myocarditis and ventricular fibrillation - **M. Zecchin (Trieste)**
- Criteria for selection of patients to undergo CRT: responder patients - **M. Lunati (Milan)**

Thursday, 18 February 2016

11.00-13.30 **Modern approaches to Atrial Fibrillation:
from diagnosis to treatment**

Introduction:

**R. Bonmassari (Trento),
R. Oberhollenzer (Bolzano)**

FIRST PART (11.00-12.15)

Chairmen:

A. Bonso (Feltre - BL), R. Paulmichl (Merano)

- Atrial fibrillation detection and clinical management - **M. Erckert (Merano)**
- NOACs: selection of patients and difficult scenarios (previous cerebral hemorrhage, elderly, drug combinations) - **C. Baracchini (Padova)**
- NOACs and triple therapy in ischemic cardiomyopathy: the good, the bad, the ugly - **W.M. Franz (Innsbruck)**

SECOND PART (12.15-13.30)

Chairmen:

G. Hindriks (Leipzig), M. Lunati (Milan)

- Interventional therapy for atrial fibrillation: when and which energy source? **G. Fassini (Milan)**
- New technology to reduce fluoroscopy and optimize results for AF-ablation - **M. Martinek (Innsbruck)**

LECTURE:

"State of the art"

G. Hindriks (Leipzig)

Thursday, 18 February 2016

ROOM A

14.00-15.00 **Practical aspects concerning the device
management (italian language)**
I. Endrizzi (Bolzano), D. Montanaro (Bolzano)

PLENARY ROOM

14.30-16.30 **Clinical cases: electrophysiology and modern
techniques in device implantation**
Chairmen:
D. Catanzariti (Rovereto), J.C. Deharo (Marseille)

- Subcutaneous ICD - **G. Molon (Negrar-VR)**
- Leadless pacemaker - **A. Curnis (Brescia)**
- Left atrial appendage closure by implantable devices **W.M. Franz (Innsbruck)**
- Ventricular tachycardia ablation in dilated cardiomyopathy - **C. Carbucicchio (Milan)**
- CRT implants guided by 3D navigation and advanced mapping system - **M. Del Greco (Rovereto)**

Thursday, 18 February 2016

17.00-18.30 **Scientific research activity**

Chairmen:

R.A. Kenny (Dublin), R. Sutton (Monte Carlo)

- APAF-CRT (Atrioventricular Junction Ablation and Biventricular Pacing for Atrial Fibrillation and Heart Failure)- **M. Brignole (Lavagna)**
- MALABO Trial: effect of caffeine + capsaicin in sublingual way in tilt-induced typical vasovagal syncope - **R.P. Guieu (Marseille)**
- BYOSINC: benefit of a dual-chamber pacing with Closed Loop Stimulation (CLS) in tilt-induced cardio-inhibitory reflex syncope. A randomized double-blind parallel international trial - **M. Tomaino (Bolzano)**
- *USA Trial: adenosine phenotypes in different clinical forms of neurally-mediated syncope* - **J.C. Deharo (Marseille)**
- Sudden cardiac death prevention: genetic scientific activity EURAC Bolzano - **A. Rossini (Bolzano)**

Friday, 19 February 2016

**“Syncope Project” from GIMSI
(Multidisciplinary Italian Group for the Study of Syncope)**

ROOM A

8.00-9.00 **Role of “Physician Assistants” in the management of patients with syncope (italian language)**

Chairmen:

**C. Bertagnoli (Cles, Trento),
D. Rampazzo (Chioggia - VE),
P. Sgobino (Bolzano)**

*Telecardiologia
Tilt Table Test
Tilt Training*

**I. Endrizzi (Bolzano)
M. Pontalti (Bolzano)
S. Bosato (Bolzano)**

PLENARY ROOM

8.00-9.00 **Exposè of Scientific and Clinical Experiences**

Chairmen:

F. Barbic (Milan), A. Coser (Trento)

9.00-10.30 **GIMSI registry and scientific activity**

Chairmen:

R. Furlan (Milan), A. Moya (Barcelona)

- SUP-2 results: “assessment of a standardized algorithm for cardiac pacing in old patients affected by severe unpredictable reflex syncope”
M. Tomaino (Bolzano)
- STOP-VD Study (Stop Vasodepressor Drugs Syncope)
M. Brignole (Lavagna)
- GIMSI suggestions concerning the admission criteria and related role of “competence”. Strategic role of “Short Observation Area” in the Emergency Department
I. Casagrande (Alessandria)

Friday, 19 February 2016

LECTURE:

Towards a worldwide consensus on Syncope Units
R.A. Kenny (Dublin)

10.40-13.30 **Certain or suspected reflex syncope / unexplained syncope: optimal diagnostic pathway and therapeutic approach**

Introduction: **G. Masotti (Florence)**

LECTURE: **R. Sutton (Monte Carlo)**

FIRST PART (11-12,15)

Chairmen:

C. Menozzi (Reggio Emilia), F. Rabajoli (Turin)

- Should ILR (Implantable Loop Recorder) be the first diagnostic option?
D. Andresen (Berlin)
 - Follow-up of patients with neurally mediated reflex syncope treated by permanent pacing
R. Maggi (Lavagna - GE)
 - Utility of an organized and well structured program of "Training" to act the ICM (Isometric Counterpressure Maneuvres) - **C. Romeo (Bolzano)**
- SECOND PART (12,15-13,30)*
- #### **Chairmen:**
- G. Costantino (Milan), A. Moya (Barcelona)**
- Reflex syncope and hypotensive orthostatic syncope in the elderly - **A. Ungar (Florence)**
 - Non-syncopal loss of consciousness: role of the neurologist in the context of the Syncope Unit
S. Zanigni (Bologna)
 - Reflex Syncope and "High risk activities"
R. Furlan (Milan)

Friday, 19 February 2016

ROOM A

14.00-15.00 Practical aspects: loop recorders and remote control (italian language)
I. Endrizzi (Bolzano), D. Montanaro (Bolzano)

PLENARY ROOM

14.30-16.30 Clinical cases: syncope and sudden death

Chairmen:

D. Andresen (Berlin), J.C. Deharo (Marseille)

LECTURE: Arrhythmogenic Right Ventricular Dysplasia : risk stratification and therapy - **D. Corrado (Padua)**

- Long QT - **M. Marini (Trento)**
- Cathecolaminergic ventricular tachycardia
W. Rauhe (Bolzano)
- Brugada Syndrome - **A. Moya (Barcelona)**
- Hypertrophic cardiomyopathy - **G. Gaggioli (Genoa)**
- Short QT - **L. Bertagnolli (Leipzig)**

16.30-17.00 Syncope Unit: its role in the management of patients with loss of consciousness

Chairmen:

G. Masotti (Florence), C. Menozzi (Reggio Emilia)

LECTURE:

M. Brignole (Lavagna)

End Of Works - M. Tomaino (Bolzano)

DoloMeeting Arrhythmias

international workshop - sessioni infermieristiche
